Talent Willing to
Embrace Challenge

PRIMARY DELIVERY MODELS

Managed Projects

PDS provides Program/Project Management and staffs the entire project. These are typically Time and Materials with a Statement of Work (SOW). Work is performed either onsite at Client facilities or offsite at PDS facilities.

Staff Augmentation

PDS places Contractors on Long-term engagements at the Client.

Direct Placement

PDS helps Clients fill fulltime positions.

Outsourcing

PDS fulfills a specific function for our Clients.

Payroll Services

PDS payrolls contractors identified by our Clients.

PROVEN EXPERTISE

Programs and Departments Supported by PDS

- EGSE: Electrical Ground Support Equipment
- MGSE: Mechanical Ground Support Equipment
- Zuken Electrical Schematics
- Ground Software
- Flight Software
- Simulation & Emulation
- Thermal & Propulsion
- Design Services: Structural, Mechanical, Electrical
- Structures
- Scheduling & Planning
- IT – Security, SAP, Business Analysts, Project Managers, Network and Systems
- Avionics
- GPS
- Guidance and Navigation
- Systems Engineering
- Stress Analysis
- Dynamics & Fluids
- Mass Properties & Payload
- Manufacturing, Tooling, & Production
- Test & Integration
- Quality and Reliability
- EMI/EMC
- ECS

"PDS has always been fabulous to work with. Their recruiters are very good and take the time to not only find the right technical skill set, but they came and met my team I was hiring into in order to find that right culture fit as well. I highly recommend them."

Audrey S., SPHR
Manager, Human Resources
Canoe Ventures

PROVEN EXPERTISE

Aerospace Positions Supported by PDS

- Aerospace Engineer
- Automation Engineer
- Avionics Engineer
- CFD Engineer
- Contamination/Encapsulation
- Control Systems Engineer
- Cybersecurity
- DevOps
- Design Engineers – NX, CREO, Solidworks, Catia, AutoCAD
- Dynamics Engineer
- Electrical Design Engineers
- Electrical Engineers
- Electronics Engineer
- EMI/EMC
- Environmental Control Systems (ECS)
- Facilities Engineer
- FEA Engineer
- Fluids Engineer
- GPS Engineer
- Guidance, Navigation & Control Engineer
- Hydraulics Engineer
- IT – Security, SAP, Business Analysts, Project Managers, Network and Systems
- Logistics Support
- Manufacturing Engineer
- Mass Properties
- Materials Engineer
- Mechanical Design Engineers (NX, CREO, Catia, AutoCAD, Solidworks)
- Mechanical Engineers
- Network Engineer
- Packaging Engineer
- Payload and Mass Properties Engineer
- Piping Engineer
- PLM Administrators
- Procurement/Subcontract Administrator
- Program Manager
- Propulsion Engineer
- Quality Engineer
- Reliability Engineer
- Scheduler/Planner
- Software Architect
- Software Engineer – Applications
- Software Engineer – Low Level
- Software Engineer – Real-Time Embedded
- Software Quality Assurance
- Software Systems Engineer
- Software Tools
- Strength/Stress Analyst and Engineer
- Structural Design Engineer
- Structural Engineer
- Supplier Management
- Systems Integration Engineer
- Systems Engineer-Avionics, Electrical, Mechanical
- TeamCenter Support
- Test & Integration Engineer
- Test Engineer
- Thermal Engineer
- Tooling Engineer
- Turbo-Machinery Engineer
- Web Architect
- Wind Tunnel Engineer
- Windchill Support
- Wire Harness Engineer/Designer
- Zuken Design Engineer
